

Message from Project Manager, NABP Nepal

It has given me immense pleasure that I am going to write a short message in the website of Eye Health Programme – Rapti and Bahadurgunj.

In true sense I am more familiar with the name “Rapti Eye Hospital”, Dang because I have grown with this hospital, being a part through its thick and thin. I have seen the hard times but simultaneously also seen the gradual development of Rapti Eye Hospital. As a result, now Rapti Eye Hospital has been widened to Eye Health Programme –

Rapti and Bahadurgunj. As a token of significant development it has given birth to other two major full fledged hospital, Lamahi Eye Hospital in Lamahi and Chhanda (Kalebabu) Narayani Eye Hospital in Bahadurgunj and some satellite eye centres.

I am very optimistic that Eye Health Programme – Rapti and Kapilvastu will always be in the right track to set a mile stone and reach there and I am sure this day will come very soon and I will be one of the witness in my life time.

I would like to encourage the entire staff and each and every person involved in this project for the successful mission and thank from the bottom of my heart for their endeavors.

H. S. Bista

Project Manager

NABP Nepal
