# Eye Health Program- Rapti & Bahadurgunj, (Rapti Eye Hospital, Lamahi Eye Hospital, CKNEH-Bahadurgunj) ANNUAL REPORT- 2016

The Norwegian Association of the  
**Blind and Partially Sighted**

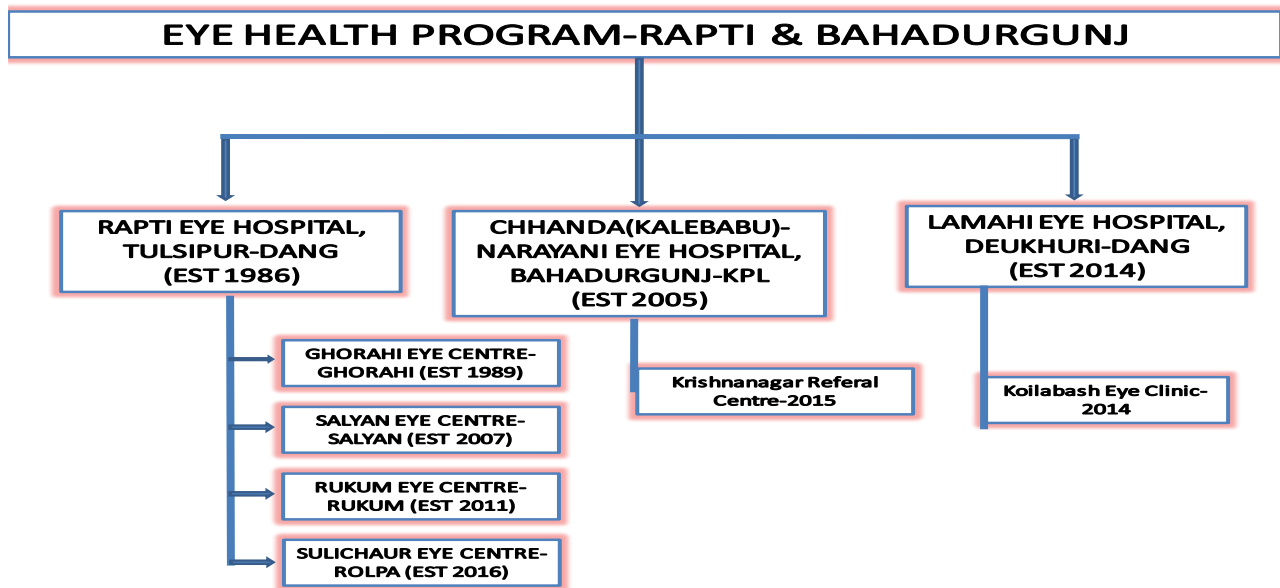

# EYE HEALTH PROGRAM- RAPTI AND BAHADURGUNJ

There are three eye hospitals (Rapti Eye Hospital, Lamahi Eye Hospital, Chhanda(kalebabu)-Narayani Eye Hospital) four primary eye care centres (Ghorahi Eye Centre, Salyan Eye Centre, Rukum Eye Centre, Sulichaur Eye Centre, Rolpa) one referral clinic (Krishnanagar referral centre) and one weekly clinic (Koilabash weekly clinic) under Eye Health Program-Rapti & Bahadurgunj.

EHP-R&B is a directorate body to streamline the Hospitals, Primary Eye Care Centres and Referral Centre into common goal and objective,

It has been providing curative, preventive and pro-motive eye health service in five districts of Rapti Zone (Dang, Salyan, Rukum, Rolpa and Pyuthan) and one district of Kapilvastu, (Rupandehi).

## Objective

The objective of eye health program- Rapti & Bahadurgunj is to sensitize and make aware of eye health education, cause and elimination of avoidable blindness, curative, preventive, pro- motive and rehabilitative program.

## Target Groups/Beneficiaries

- Blind
- Low vision and partially sighted person and
- General peoples

## Institutional Target

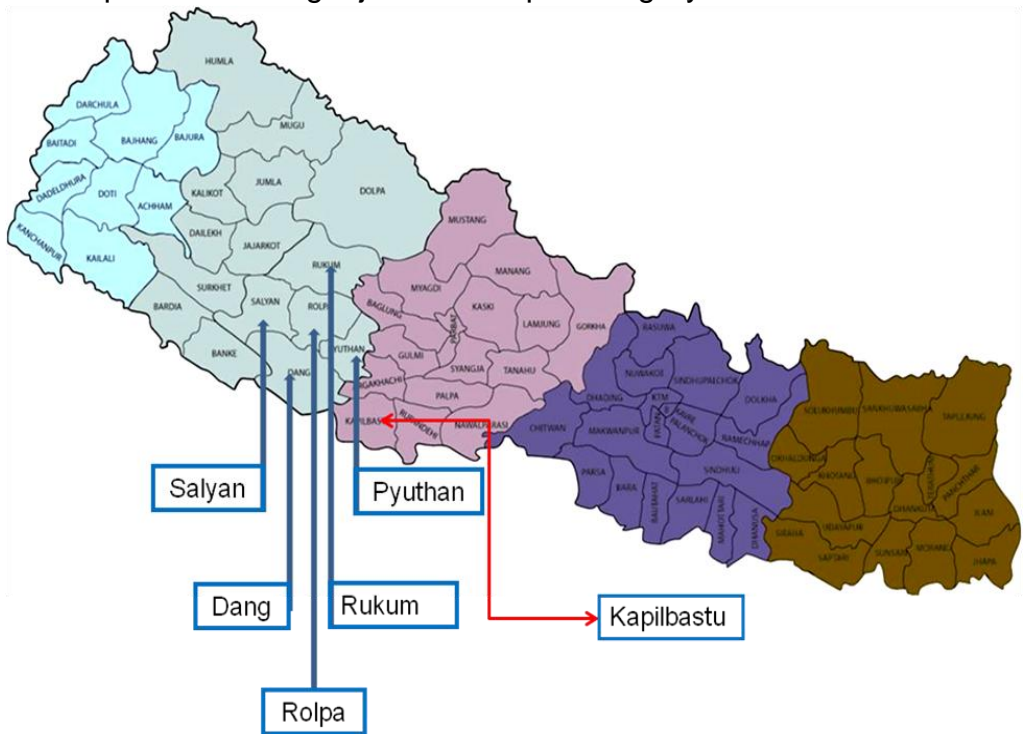

- 50 bedded Rapti Eye Hospital, Tulsipur, Dang.
- 50 Bedded Lamahi Eye Hospital, Deukhuri, Dang.
- 100 Bedded CKNEH-Bahadurgunj, Kapilbastu.
- And Its satellite Eye Centre and Clinics

## Major Activities

- Provide Curative, Pro-motive, Preventive and Rehabilitative service.
- Conduct outreach activities , eye health education and eye health campaign to generate awareness and to make referral system strong.
- Eliminate the main cause of avoidable blindness.
- Continuous education and training opportunities for employees to enhance them for quality service.
- Rehabilitation service through CBR wing at base hospital.
- Continues development of infrastructure as per master plan.
- Advocacy for sustainable development of eye health program in Rapti and Kapilbastu at Local and Central level.
- Equipped hospital with modern equipments and technology.

## SERVICE AREAS

Eye Health Program- Rapti & Bahadurgunj has been providing eye health service in five districts of Rapti Zone and one district of Lumbini Zone. There are 1.47 million Populations in Rapti Zone, .57 million populations are in Kapilbastu District, they are benefited with the service of eye health program-Rapti & Kapilbastu. In addition to Nepalese population, Indian patients from UP, Bihar are benefited by eye health program.

## HOSPITALS/PECC UNDER EYE HEALTH PROGRAM

### 1. RAPTI EYE HOSPITAL

Rapti eye hospital is located at Raksyachaur-2, Tulsipur, Dang, Rapti zone which is in the mid-western region of Nepal and has a population of 1.4 million. It has 4 Bigha (2.70 hectare) Land which is registered in the name of Nepal Netra Jyoti Sangh. According to the Nepal Blindness Survey of 1981 the prevalence of blindness in Rapti was 0.87% which was reduced to 0.13% in second survey of 2010 (RAAB Survey). Rapti Eye Hospital is 50 bedded eye hospital which was established in 1986 with the support of Norwegian Church Aid (NCA), Norway. Later in 1996 a dialogue was held between NCA & NABP (Norwegian Association of the Blind and Partially Sighted) investigating the possibilities of NABP taking over the NCA's role as founding partner to the Rapti Eye Hospital, Dang. **NABP** showed interest not only in maintaining the previous eye care activities at the Hospital, but also in

expanding activities in the field of Training/Rehabilitation of blind and partially sighted . **NABP** took over the role of NCA as funding partner to Rapti Eye Hospital, Dang on 1<sup>st</sup> January 1998 to 2011 and extended its support to Eye Health Program II, Lamahi from 2012. There are four Primary Eye Care Centres (GEC, SEC, REC, SEC-Rolpa) running under Rapti Eye Hospital. Rapti provides comprehensive eye care service i.e curative, preventive, promotive and rehabilitative service.

## **2. LAMAHI EYE HOSPITAL**

Lamahi Eye Hospital was started in 2002 in Deukhuri, Dang as a weekly satellite clinic of Rapti Eye Hospital. Later on 9<sup>th</sup> September 2009, it was upgraded to Primary Eye Care Centre with an objective to upgrade it as a full fledged eye hospital. This objective was soon fulfilled with the financial support of NABP and needful land (2.88 acre) support at free of cost by Town Development Committee, Lamahi. The foundation stone laying ceremony was held in 23<sup>rd</sup> Nov 2010. The construction work was completed in 2012 and eye service was started from own building from 2013. Later, the building was inaugurated in 2014 as a full fledged eye hospital. It has big catchment area; aiming to provide eye health service to the people of Rolpa, Pyuthan, Arghakhachi districts and part of Banke district. The Lamahi Eye Hospital is centrally located between Chhanda(Kalebahu)-Narayani Eye Hospital, Bahadurgunj and Rapti Eye Hospital, Tulsipur. Weekly clinic at Koilabash (near to Indian boarder) is managed by Lamahi.

## **3. CHHANDA(KALEBABU)-NARAYANI EYE HOSPITAL**

NNJS-Rapti Eye Hospital and NAB-Rehabilitation program were jointly working for the curable and incurable blind in Rapti since 1998 with the support of NABP-Norway. After phase out from Rapti, NAB-Rehabilitation program was started in Bahadurgunj of Kapilbastu District in 2004. The eye care and rehabilitation service for curable and incurable blind was good experience for NNJS and NAB. Hence, NNJS-Rapti Eye Hospital had decided to start a referral eye centre jointly with NAB-Rehabilitation Program in Bahadurgunj Kapilbastu in 1<sup>st</sup> December 2004. The main objective of the centre was to provide eye service for the curable blind. NAB-Rehabilitation program had conducted door to door survey and found near about thirteen thousand curable blind in Kapilbastu. The result of survey work and finding of curable patients in Kapilbastu encouraged to NNJS-

Rapti Eye Hospital to upgrade it into a surgical centre. Previously it was started in a rented house in Krishnanagar and later shifted to a rented building and land in Bahadurgunj as a Surgical Eye Care Centre. Gradually, the number of Nepali patients as well as Indian patients started to increase in the centre. The service provided by this centre and satisfaction of patients has supported to convince Ms Narayani Shah, owner of land and building to donate land to upgrade this centre as a full fledged hospital. She donated 1.41 acre land to centre on 5<sup>th</sup> September 2012. This centre has been recognized as Chhanda (Kalebabu)-Narayani Eye Hospital, Bahadurgunj from central NNJS and honored to Ms Narayani Sha. The foundation stone laying ceremony of ward building was held on 15<sup>th</sup> July 2014. It has one referral centre in Krishnanagar.

#### **4. GHORAHY EYE CENTRE**

It was established in 1989. It is situated inside the premises of Sub-Regional Hospital of Nepal Government at Ghorahi, Dang. Mr, Ganesh Sharma, a local donor had constructed the building. He was blind by birth and donated this building for eye care service. In average 60-70 patients are getting eye care service daily. This centre is centrally located between Rapti Eye Hospital and Lamahi Eye Hospital. Patients are referred for cataract surgery to base hospital. Nepal Government is providing partial financial support to this centre.

#### **5. SALYAN EYE CENTRE**

This center was established in 1<sup>st</sup> January, 2007 at Khalanga of Salyan District with the administrative support of Nepal Red Cross Society of Salyan by providing free room for eye care service. But due to less access of patients in Kahalanga , the management team of Hospital and Nepal Red Cross team of Salyan jointly agreed to shift the centre in Shreenagar of Salyan from June 2012. In average 15-20 patients are getting eye care service. The patients are referred to Rapti for surgery and other major treatment. There is coordination committee team for the overall development of centre. Nepal Government is providing partial financial support to this centre. The centre is running in rented building of Krishi Samagri Sansthan-A government building. The local donor have donated free land at the same place (shreenagar) and the team are actively participating to get the fund from Government at local level for the construction of building.

## **6. RUKUM EYE CENTRE**

This center was established at Musikot, Rukum in 2011. The population of Rukum District is more than .2 million and has benefited by this centre. At present this is running at a rented house of Nepal Red Cross Society, Rukum. Nepal Government is providing partial financial support to this center. Nepal Netra Jyoti Sangh, Rukum Branch was established in 2016 which is managing the centre. The local donor have donated land to this centre and the team members are trying to get fund support for the construction of building.

## **7. SULICHAUR EYE CENTRE, ROLPA**

This center was established at Sulichaur, Rolpa on 16<sup>th</sup> February 2016. It was inaugurated by than honorable home minister Mr, Krishna Bahadur Mahara. This centre is referral centre of Rapti. At present this is running in a rented house.

## **8. KRISHNANAGAR REFERRAL CLINIC**

Krishnanagar Referral Clinic was started in 2014 in order to make easy excess to patients and also to make referral system strong for the CKNEH-Bahdurgunj.

## **9. KOILABASH WEEKLY CLINIC**

Koilabash weekly clinic was started from 2013 in order to make referral system strong for Lamahi Eye Hospital. This centre is situated near to Indian Boarder (34 KM away from Lamahi Eye Hospital).

## CUMMULATIVE FIGURE (ACHIEVEMENT FROM 1986 TO 2016)

<b>CUMMULATIVE DATA – 1986 TO 2016</b>	<b>OPD</b>
RAPTI EYE HOSPITAL (1986 TO 2016) :	665,859

## **HIGHLIGHTS-2016**

### **OPD**

All the eye hospitals and eye centres under Eye Health Programme- Rapti and Bahadurgunj provided OPD service to 239,910 (Male 43.82% / Female 56.17%) patients where target was to provide to 187,800. The number of OPD patients has increased both in Base Hospitals, Eye Care Centre and Free surgical eye camp due to quality service, affordable fee and free service.

## EYE HEALTH EDUCATION/SCREENING CAMP/SURGICAL CAMPS/AWARNESS PROGRAM

School Eye Health Education was targeted to provide 15000 students, 20,172 students received eye health education.

Free eye check up was conducted in 34 schools (target was for 20 schools) where 14,296 students got their eye examined (Boys 48.54% / Girls 51.45%). Among them 586 students (Boys 41.63% / Girls 58.36%) were prescribed glass which was provided to them free of cost with the support of central NNJS.

Screening camp (DST) and Pick up camps/ DST was targeted in 50 spots but conducted in 63 spots. The number of patients in screening and pick up camp was 9,448 (male 39.40 % / female 60.59%)

Free surgical camps were conducted in 13 places (Chaurjahari-Rukum, Sallibazar-Salyan, Puja-Pyuthan, Ghartigaun-Rolpa, Kakri-Rukum, Tharmare-Salyan, Sulichaur-Rolpa, Shreenagar-Salyan, Shishawa-Kapilbastu, Pakadi-Kapilbasu, Salle-Rukum, Shreenagar-Salyan, Sulichaur-Rolpa ) where 6,288 patients got free treatment (Male 41.45% / Female 58.54%) Among them 1161 patients got free cataract surgery (Male 49.26%/ Female 50.73%).

Conducted awareness and advocacy program at Rukum District at “Dikre Sai Kumari Mela” and Pyuthan Mela with the support of National Eye Health Program through Central NNJS and NABP- Norway. It is kind of ritual festival where many people (more than 100 thousand) gathered for worship God. The team had distributed leaf let with eye health message, broadcasted message through micking. This has been good experience for us that such kind of advocacy has supported to make access of patients in centre as well as free surgical eye camp. With the advocacy activities the number of surgery in free eye camp of Rukum, more than 200 cataract surgeries were performed.

## **SUCCESSFUL STORY**

Mr. Khadke Damai, aged 47, resident of Khalanga – 9 of Rukum district, a hilly remote district of Rapti zone, and western region of Nepal was deaf and dumb since his birth. In spite of his disability he was able to carry out his daily activities, in addition he was help to his family as he used to look after the cattle and do some household chores. Four years back he got hit by the cataract and became blind with both eyes. Post blindness his life started to become worse as he already was deaf and dumb. He became totally dependent even for a small thing. His life became miserable and he became very much depressed. One fine day the Incharge of our Rukum Eye Centre found him at his home. He collected the information from his family member and started to counsel him for the surgery. Previously he denied for the surgery as he was very much panic. As per source of his family he was approached two years back also by our outreach activity team and that time also he had denied. After the very much effort and counselling of Mr. Niranjana Gaire, incharge of Rukum Eye Centre, finally he agreed. He was brought to Rapti Eye Hospital, Dang in full expense of the hospital and he got both eye surgery one after another within some span of time difference in the support of iCare NABP Norway. The total expenses incurred his surgery was borne by the fund from NABP Norway. The surgery was performed by Dr. Sulaxmi Katuwal and Dr.

Monica Karmacharya. After surgery when he got vision, the joy in his face could not be described. He including his family member was very happy, after all a deaf, dumb and total blind person had got new life, he again was able to see the world and lead the normal life as before. His brother Mr. Haste Damai told, "We can't describe how happy we are. My brother who was total idle and burden to the family, have got new life. Without the support of Eye Health Programme and NABP it would not be possible. We from the bottom of our heart would like to thank the hospital team." After about four months our hospital had organized a camp in the same area of Mr. Khadke Damai. As per our outreach coordinator Mr. Salikram Gautam Mr. Damai came to the camp. Mr. Gautam found a drastic change on him. He looked very smart with cleanly shaved face and clean cloth. He looked very cheerful. In such a huge gathering he recognized each and every staff involved in his surgery at the hospital, approached to them and greeted. By his sign language he thanked the hospital team.
